TF THE BABY IS CUTFING THETH, one Mrs. WINSLOW'S SOOTHING STRUP, which will greatly facilitate the process and regulate

READ THE FOLLOWING LETTER:

David Miller of Clarence, New-York, writes: "We have a child three months old, which has screamed almost increasantly with a spasmodic affection of the bowels, so that we had despatred of ever raising it. Its stomach was sour. bowels deranged, and almost every symptom was unfavorable, mutil we obtained a bottle of the Soothing Syrup, which acted The a charm. It immediately became quiet, and now manifests every symptom of improvement and comfort. It is now as good as a little kitten, playful and amiling, and seems entirely well ill of which we ascribe to the use of Mrs. WINSLOW'S COTHING SYRUP.

"Yours, respectfully, "DAVID MILLER."

Millions of bottles of MRS. WINSLOW'S SOOTHING EVRUP are now used every year in the United States for chilfrom teething, with never-falling success. Relief is IMMEDIATE and CERTAIN.

FRIDAY, March 8-P. M.

The foreign advices by the Bremen were looked on as more favorable than had been anticipated, and Man J. of Page this, with the absence of any unfavorable advices from Washington, tended to confirm the improved feeling in the stock market noticed yesterday. The lapse of day after day without any occurrence calculated to precipitate a crisis with the Southern States, strengthens those who are able to look hopefully on the future, in the belief that a collision will in some way be avoided. There is with many operators an abiding faith that some means will be devised to secure this result, although they find it difficult to give a reason for their faith. Late in the day some private dispatches were received of an encouraging character in regard to the Border States, and the rumor that Fort Brown had been surrendered without a fight, had a favorable effect. At the morning Board the business was unusually large, and in nearly every description there was an advance. The sales of Central were nearly 4,000 shares, and the quotations advanced I & cent. Erie was very buoyant, showing an advance of 2 & cent. This stock and Illinois Central improved under the more favorable advices from England. The Western shares were active, but generally lower in closing transactions than at the opening. There was some attempt to hammer the market, but one or two of the prominent bears having receded, the attempt was not very successful. Between the Boards there was not a large business, but quotations were steady. At the Second Board the market was irregular, but us a whole lower. There was, however, not much disposition to press stocks on the market; and toward the close and after the regular session the market received more support, and improved i to i W cent. Some of the leading operators had dispatches from the South leading them to hope for a peaceful solution of our difficulties, and inducing hem to operate for the rise. In State stocks the market has been firm, with a rise of 1 to 1| P cent. In railroad bonds there was but little done. Government stock was better, advancing to 94. At the close the quotations were: United States 5s, 1874, 857 @87; Virginia 6e, 76 2761; Missouri 6e, 651 2 651; Canton Company, 14 2 15; Cumberland Coal Company, 7 274; Pacific Mail Steamship Company, 84 284; New-York Central Railroad, 781 #781; Erie Railroad, 331 #331; Hudson River Railroad, 451 2 451; Harlem Railroad, 15} @17; Harlem Railroad, preferred, 391 @394; Reading Railroad, 431 @44; Michigan Central Railroad, 571 2574; Michigan Southern and Northern Indiana Railroad, 151 2 152; Michigan Southern and Northern Indiana Railroad Guaranteed Stock, 351 2 357; Panama Railroad, 1141@116; Illinois Central Railroad 801@ 801; Galena and Chicago Railroad, 704 271; Cleveland and Toledo, 341@341; Chicago and Rock Island Railroad, 58 2584; Chicago, Burlington and Quincy Railroad, 71 2714; Illinois Central Railroad 7s, 98

The Atlantic Fire Insurance Co. of Brooklyn has declared a semi-annual dividend of ten per cent, payable on demand. In the open market there is a better demand and a firmer feeling for the new Government loan. Sales of the coupons have been made at 92, and the registered at 94. Treasury Notes are not plenty, and are better. Buyers cannot do better than 82 per cent interest. We hear of considerable sales at about that figure. Among the payments to-day at the Ass stant Treasury was \$100,000 for matured Treasury Notes. About \$700,000 more fall due within a few days. The bonds of the new loan come along slowly, which is probably to be accounted for by the changes going on at the Department.

The Australian not having arrived, the Adriatic which was to have left this port to-morrow (Saturday), will take her place, and leave on Wednesday next at 8 a. m. from Canal street. She has been chartered for this purpose by Mr. Cunard. The mails to-morrow will be taken by the Edinburgh.

The Money market remains unchanged. The banks find it difficult to find first-class paper enough for their purposes, and while this state of things exists but little finds its way into the discount houses. The range of choice names is 6 27 V cent, with some good signstures at 8 & 10 P cent. Demand loans are 6 @7 P cent, and the supply of capital is abundant.

The private letters by the Bremen contain no allusion to the suspension of the London banking house which has been referred to, excepting in one case, where it is pronounced an idle rumor. The newspapers make no reference to it. The arrest of M. Mires is the subject of much discussion, but will not have any influence here. The letters state that a further advance in the Bank of England rate of interest was expected, and would certainly be made if the drain of gold to America continued. For American stocks the market

The Chicago and Northwestern Railway is now completed from Chicago to Appleton, and next year will be continued to Green Bay. This gives a continuous, unbroken gauge from Appleton to New-York.

At Chicago, on Tuesday, says The Tribune, At Chicago, on Tuesday, says The Tribune,

"The money maket was quiet in all its departments. There
is a very great scarcity of paper for discount; and the only more
ment seems to be in exchange. That moves very slowly, for
hoveer do not like to pay the present enormous rates, viz: 7 per
cent premium. It must fail at least to half the present price before the demand can become active. It was decidedly adult this
morning, but there was rather more inquiry toward the close.
The general feeling is that it cannot remain many days at its
present rates. Active shipments must soon commence, when
our merchants may hope for a rapid return to living figures."

In regard to the Canada trade, The Toronto Leader

Says:

For the first time in the history of Canada the exports have exceeded the imports in value. The year 1980 will be remarkshie as the first in which the balance of trade has been a favor of the Province. In the previous year the figures stood: Imports \$435,505,161; exports \$424,606,98!. In 1856 the difference was a between \$439,000 and \$25,000 in round figures, and in 1857 the divergence was a great deal wider, the value of the imports being \$43,430,506, and that of the exports, \$27,907,624. Whatever may be the theory of the balances of trade, certain it is that every country feels at liberty to congratulate itself when it has a favorable trade bannes-sheet to show at the end of the year. We were among those who were not without apprehensions that Mr. Gali's tariff might divert a large part of the trade of Torinto to Montreal. This question has ceased to be appendixtue, and we are now enabled to entit it by comparative facts. In 1856 the year helone Mr. Gali's tariff was passed, the value of the imports of Toronto was 44,765,364, while those of Montreal, the formes being \$4,903,508, and those of Montreal that the part of \$200,500 and \$200, About three-lourths of the customs revenue is derived ticles which pay a duty of from 15 to 20 per cent; but 447,935 of goods imported, \$10,552,485 paid no duty at all.

CHARTER ELECTION.-The charter election for city officers in Jersey City, is to take place on Tuesday, the 2d of April. Already, a large number of aspirants are in the field, and "pulling wires," in order to accomplish their wishes. The following offices are to be filled: Mayor, Alder-

men, Recorder, Chief of Police, Collector of Revenue,

and Water Commissioners. For the office of Mayor,

eleven prominent gentlemen are named; for Aldermen, there are about fifty candidates. The present Winter, two additional Wards (the Fifth and Sixth) have been

set off; the office of Chief of Police was made elective, and the office of Collector of Revenue has been created The election bids fair to be a very spirited one.

THE ARTILLERY REGIMENT .- This Regiment, which was formed a few days since, have elected Capt. Hexamer as Major. The Regiment will consist of four Artillery Companies and one of Dragoons.

ACCIDENT FROM BURNING FLUID.—Mrs. McMahon, residing at No. 186 Morgan street, Jersey City, was very severely burned, on Thursday night, by the accidental upsetting of a fluid lamp.

FIRE ON RANDALL'S ISLAND—DESTRUCTION OF TRE SHOE SHOP.

At I o'clock vesterday morning a fire broke out in the three story brick building, seventy-five feet long by fifty feet wide, located on Randall's Island, and owned by the Society for the Reformation of Juvenile Delinquents. The building was known as the shee shop, and was leased by John O. Whitehouse & Co., of this city, who employed about 250 of the boys confined in the House of Refuge in the manufacture of shoes. The fire originated in the cellar, and is said to have been caused by one of the boys purposely turning the tap of a barrel containing alcohol, and igniting the excaping fluid. The flames spread with great rapidity, and soon enveloped the entire builting, which, in less than an hour, was laid in ruins. The alarm being rung for the First District, several fire companies proceeded to the Randall's Island Ferry with their engines, but owing to the absence of a boat large enough, they were unable to crose the river. A squad of paupers from the Work-House under the direction of Warders Stephens, repaired to the fire with an old hand engine, but were unable to render any material assistance. About 17,000 pairs of shoes were destroyed, together with a large quantity of stock and tools involving a loss of about \$12,000. Messrs. Whitehouse & Co., are insured for \$2,500 in the King's County, and \$2,500 in the American Insurance Company of Philadelphia.

The building, valued at \$3,000, belonged to the Society for the Reformation of Javenile Delinquents, and was insured, but in what Companies we did not learn.

At 101 o'clock yesterday morning a straw bed took fire, from some unexplained cause, in the tenement house No. 162 Seventh street, giving rise to an alarm. But little damage was sustaine?.

THE GEORGIA REPRISALS.

RELEASE OF THE BARK ADJUSTER. The bark Adjuster is at last released by the Gover-tor of Georgia. The release takes place at the instance of Mr. Molineux, the British Consul at Savannah, and in behalf of the charter party, who are British sub-

This release establishes the novel precedent of a New-York vessel claiming and receiving a British pro-tection in American waters.

The Adjuster was seized by authority of the Gover-ner of Georgia, on the 8th of February, in retalistion for the detention of arms by the New-York Police. She remained in custody for two days, when she was re-leased.

On the 27th of February she was again seized, with

On the 27th of February she was again seized, with other vessels, and a strong guard of soldiers placed on board of her. The rescioure having been telegraphed to the owners by Capt. Ewell, they sent communications to Ex-President inchanae and Hon. John A. Dix, Ex-Secretary of the Presaury, asking their interference or advice under the circumstances; but those officials did not reply. The owners then applied to Supt. Kennedy, who also kept silent.

When all hope of redress had apparently failed, Mesers. Freirichs & Co., who had chartered the vessel to carry a cargo of cotton from Savannah to Queenstown, applied to the Jovernor of Georgia for the release of the cargo, on the ground that they were British subjects, and that it was British property. The Governor replied that, under the circumstances, the cargo would be released, and placed at their disposal. Mr. Freiri ha, however, on communicating with Mesers-Funck & Meineke, found that they would not exempt him from the freight, and this circumstance led to a delay of a few days.

About a forthight since, one of the agents of the vessel, called on Mr. Archibald, the British Consul at this port, and made an affidavit that the cargo of the Adjuster was British property, and that they were British under a wall-day of the release of the vessel and eargo, on the ground that both were under British protection till the cargo was removed, and that its removal was optional with them until the vessel reached her destination. Mr. Molinerx, having advised Lord Lyens of the proceedings, sent

until the vessel reached her destination. Mr. Molineux, having advised Lord Lyons of the proceedings, sent the ambdavit to the Governor of Georgia, who replied that the cargo had been released, but that the vessel would be detained. In the meantime Mr. Lamar, President of the Bank of the Republic, certified by a telegram to the Governor of Georgia, that the freight of the Adjuster was British property.

Mr. Molineux, who, it is believed, was fully sustained in his course by Lord Lyons, pressed his application on the Governor of Georgia, and supported it by the original charter papers, which were sent on from New-York for that purpose. The Governor, on examining the papers, and finding the owners of the cargo were British subjects, ordered the uncondicional release of the vessel. Messra Freirichs & Co. would have ordered the removal of the cargo on its first reand of 5.700 bush, at 75c, for Canada East, 180c, for Canada and the Array of the Governor, on examining the papers, and finding the owners of the quest relax of 5.000 bush at 25c, cash. Oats are plenty and rather heavy the apply is good, sales of 27,000 bush, at 35c, for we carry the apply is good, sales of 27,000 bush at 35c, for the papers, and finding the owners of the carry of the carry on the supply is good, sales of 27,000 bush at 35c, for release of the vessel. Messrs, Freirichs & Co., would be a seed of the carry on its first release of the removal of the carry on its first release, but for the fact that Mesers. Funck & Meincke objected to that course, unless they paid the freight, which, as before stated, they expressed themselves un-

willing to do.
